

Ice Cream Learning Together Session

We hope that you enjoyed joining the learning together session this week and making ice cream with your child.

We have listed the ingredients and method we used to make the ice cream below, in case you would like to make the ice cream again at home.

Ingredients:

- 1/2 a cup of milk
- 1 tablespoon of sugar
- 1 teaspoon of vanilla essence/mint flavouring/strawberry flavouring/cocoa
- ice cubes
- salt
- 1 small zip lock bag
- 1 medium zip lock bag
- tea towel

Method:

Step 1: Place the milk, sugar and flavouring into the small-sized zip lock bag and combine the ingredients. Be sure to close the bag securely first.

Step 2: Place the ice into the medium zip lock bag.

Step 3: Spoon the salt over the top of the ice in the larger zip lock bag.

Step 4: Place the small bag containing the milk mixture inside the larger bag on top of the ice and salt and close the bag securely.

Step 5: Shake and massage the bag for 5 to 10 minutes or until the mixture becomes the consistency of ice cream.

Step 6: You might like to wrap the bag in a tea towel while you're shaking as it can get quite cold!

Step 7: Once ready, remove the bag of ice cream and give it a wipe to remove the salt from the outside of the bag.

Step 8: You now have your own homemade ice cream.

Add any toppings you like to make your own creation!
